AL- Noor

University College Guide

In the Name Of Allah, the Merciful the Compassionate

Allah is the Light of the Heavens and the Earth. The Parable of His Light is as a nich and Within it a Lamp: the Lamp is in a glass as it were a brilliant star, Lit from a blessed tree, an Olive, neither of the east nor of the west, whose Oil would Almost glow forth , though no fire touched it. Light upon Light Allah guides to His Light whom He wills. And Allah sets forth Parables for man Kind , and Allah All-Knower of everything.

Introduction

Editing any guide by a scientific or educational institute is an important tradition so long as it represents a real channel of revealing its scientific ability. Then it qualifies it to practice various activities in life.

This guide thus is a mirror that reflects a clear aspect of its developed departments, staff and how much it can participate in progression which is in turn appreciated by the ministry of higher education and scientific research.

Therefore, we thought of issuing such a guide of Al-Noor university. Moreover, it is a guide which presents the bright image of the college that can be yearly renewed. We edit this guide every five years so that changes may be clearly distinguished by the readers.

We intended to publish this guide after five years of establishing the college itself because of its high role in motivating students to develop their levels and abilities of study in social, scientific and educational fields.

We therefore performed this first guide to let others be acquainted closely with this college.

Dean's Speech

The colleges in a private university are similar to these in governmental ones. Both colleges achieve the same aims and their missions and certificates are truly similar but which is one aspect in which they are different is that private university colleges are built to give a chance to those who missed studying in governmental higher teaching colleges. Without private college the students cannot get any place in any private colleges.

Al-Noor University is one of these private colleges which was built to permit student in different specializations like medicine colleges which qualify students to be employed centrally like other students in the governmental colleges. There are humanitarian specializations which qualify students to be able to participate in production, management and all fields of work.

Generally speaking, Al-Noor College was established five years ago. This is a good chance to prove its scientific achievements by issuing the first college guide. We implore Allah to help us to present this guide in an excellent way.

Dr. Yasin Taha Mohammed Ali
Dean of AL-Noor University College

Members of College Council

1- Dr. Yasin Taha Mohammed Ali	the Dean of the college
2- Dr. Samir Khalaf Abdullah Hussein	Associate Dean for Scientific Affairs
3- Dr. Nabil Ahmed Jarjis Ahmed	Associate Dean for Administrative Affairs
4- Dr. Yahya Hussein Abdullah Dates	Head of Techniques for Pathological Analysis Department
5- Dr. Essam Hamo Mahmoud Shehab	Head of the Department of Pharmacy
6- Dr. Zuhair Qassem Hamoudi	Head of Physical Education Department
7- Dr. Younis Yousef Mustafa Ghazal	Representative of the Foundation/ Department of Arabic
8- Dr. Talal Hamid Mohammed	Head of the Department of Dentistry
9- Dr. Muhannad Ahmed Ali Mustafa	Head of the Techniques of Anaesthesia
10- Dr. Ismail Khalaf Abbas Awad	Head of the Department of Optical Techniques
11- Dr. Bassem Idris Zeno Mohammed	Head of the Department of Radiology and Sonar Techniques
12- Dr. Wael Shait Hussein Abdullah	Head of the Department of English
13- Dr. Nashwan Mohammed Suliman	Head of the Department of Law
14- Dr. Yousef Hamdy Fathi Ahmed	Head of Dental Industry
15- Tariq Hamoudi Amin Hassan	A representative of the Faculty
16- Ahmed Raed Ibrahim Saeed	Rapporteur of the Council
17- Helen Hanna Isa Hanna Torani	Secretary of the Council

AL-Noor University College Guide

AL-Noor University College was founded in 2013 in Ninevah, as a new academic establishment added to the governmental universities, carrying their message and following their criteria. It also presents a chance for the students especially those who did not find a chance in the governmental universities.

The college currently contains ten departments which are: departments of law, English, Physical Education, Dentistry, Medical Lab Technology, Pharmacy, Dental industry, Optics Technology, Radiology Technology and Anesthesia.

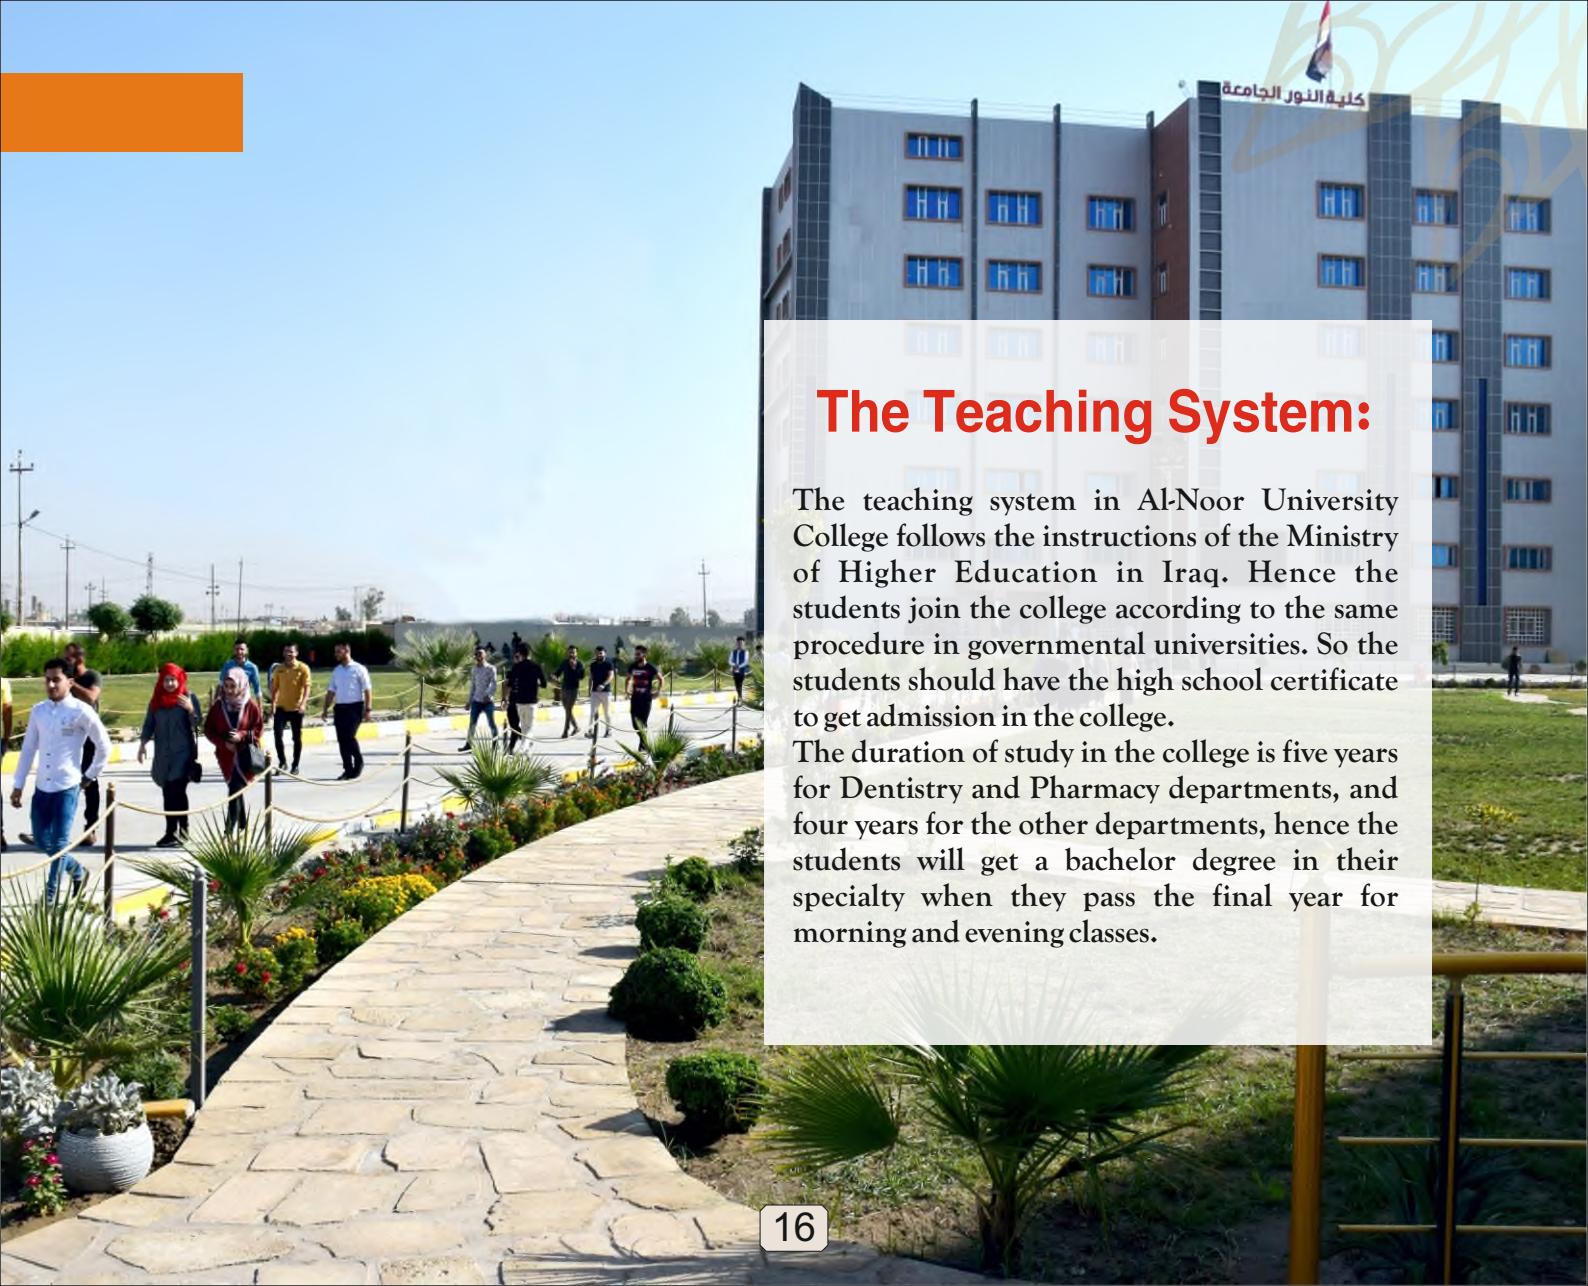

The college contains lecturers who have higher certificates and wide experiences in the academic fields in addition to an efficient administration and technical staff. The college is provided with a lot of labs furnished with the most modern devices and teaching aids as well as classrooms for the theoretical lectures in addition to the students hostel.

The college aims to achieve the goals of the Ministry of Higher Education in Iraq in its three main aspects which are preparing the students scientifically to occupy and lead management, labor, and production fields.

In addition, the college supports the scientific research through encouraging the teaching staff to prepare scientific activities like seminars, conferences, participation in scientific activities, and research publishing in professional magazines. Finally, the college serves the community and meets its needs and directs the researchers to diagnose and solve the problems in relation to the college specialty.

College Departments

- 1- Department of Law
- 2- Department of Physical Education
- 3- Department of English
- 4- Department of Arabic
- 5- Department of Dentistry
- 6- Department of Medical Laboratory Techniques
- 7- Department of Pharmacy
- 8- Department of Techniques Radiology and Sonar
- 9- Department of Dental Techniques
- 10- Department of Optics
- 11- Department of Anesthesia Techniques

The Teaching System:

The teaching system in Al-Noor University College follows the instructions of the Ministry of Higher Education in Iraq. Hence the students join the college according to the same procedure in governmental universities. So the students should have the high school certificate to get admission in the college.

The duration of study in the college is five years for Dentistry and Pharmacy departments, and four years for the other departments, hence the students will get a bachelor degree in their specialty when they pass the final year for morning and evening classes.

Vision:

The college prepare the students scientifically and develop their practical skills to be able to meet labour and production demands, in order to elevate and develop the society through permanent providing of efficient staffs.

Goals:

Firstly: the college aims to achieve higher education goals by preparing the students to be able to occupy their positions in management, labour and production sectors.

Secondly: providing the students by the most modern information and discoveries in their fields.

Message:

Firstly: meeting society needs for specialites, and determining labour market through questionnaires, scans, and field readings.

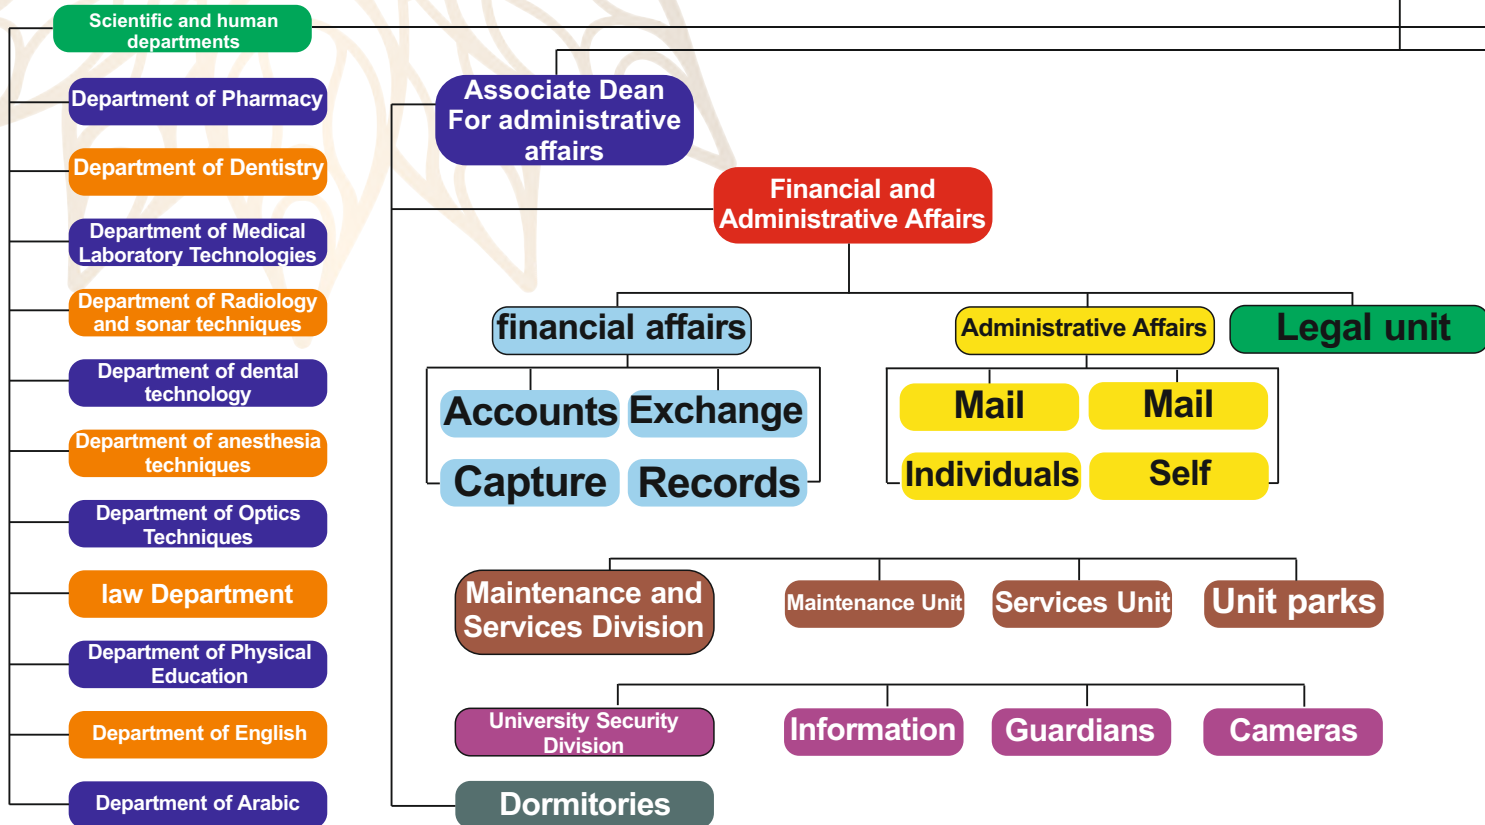

Secondly: providing labs furnished with the most modern scientific devices according to the demanded standards and preparing a suitable environment for the students.

Thirdly: training the students to use the developed and modern devices and familiarizing them to the new discoveries and techniques in their fields.

Management Affair Section:

Management affair section is regarded as one of the most important sections in Al-Noor University College which is associated directly with the dean. It includes excellent well-trained employees.

It is regarded as one of the basic administrative sections in the college and the first episode, out of which all the administrative and legal procedures are started regarding employing and the procedures which follow it during their existence in the establishment. Furthermore, to print and issue letters and instructions which determine the boundaries of work and

transfer decisions and instructions to the staff.

The Tasks:

First: Administrating human resources affairs in the College.

Second: Organizing and functionalizing personal files, and preparing full data of the permanent and temporary staff.

Third: Enriching statistical tables concerning the staff and renewing them.

Fourth: Checking times of the staff working (their sick and traditional leaves through finger print system and other archives according to College's regulations.

Fifth: Checking the

procedures of lawful affairs of procedures of the College in other formal and non-formal institutions and courts.

Sixth: Establishing electronic archives for personal files and for out and in mails and for general keeping.

Seventh: Printing the address, the administrative orders which are dispatched of the college. Organizing also other works among the units and other departments in simple technique.

Eighth: Helping and Sustaining all other departments to facilitate the college business.

Registering Branch and Students Affairs:

This branch has started its business since 2013-2014 where every thing is related to receiving, registering students and accepting them. Actually this branch continued well. About 662 male and female students were accepted at that time, and were distributed to many different departments: (Law, English, Arabic, and Physical Education, morning and evening studies of first grade).

We soon found a solution to our students after their migration to different Iraqi provinces north and south of it. Therefore, they ended their final year Examination (2013-2014).

Co-Operative process with official:

Universities appreciated this by

the Ministry of Higher Education and Scientific Research, Private Teaching.

In 2014-2015, the Formal study continued in Al-Noor College in replaced building at Al-Sheikhan province. About (173) students were accepted to be distributed in all departments. The study thus has been continued in this building for two years until the liberation of Nenevah Governorate.

After the liberation of all Nenevah parts including Bertla province, the new building was completely prepared and students were accepted in 2017-2018.

Here, New Scientific departments were opened (Dentistry: morning study), Pathology morning and

evening study, Pathology is considered one of the departments of the Techniques of Medicine. In this respect, six hundred and ninety two students- male and female were accepted.

This department continues successfully its work.

Registering Branch and Students Affairs are now ready to present all logistic requirements, Teaching Staff, and Cadres received successfully the 2018-2019 students in Al- Noor College area.

It should be mentioned that new departments will be opened as: (Pharmacy, Radiology, Anaesthesia, Dental Industry and Optics).

Duties Of Registering and Students Affairs

First: receiving and registering the new students according to the official regulations of the office of the Higher Education-private teaching.

Second: Establishing special data files for students.

Third: Giving all the scientific and human departments patterns of the administrative regulations including the lists of the new accepted students yearly.

Forth: Following accurately all the concerned business such as (delaying-expelling

failure- transfer- supplementary accepted students in the college).

Fifth: Checking school certificated electronically through the Ministry's electronic location.

Sixth: Putting the students' files in electronic archives.

Seventh: Giving appreciated signs for students' continual study and other certificates proving their graduation.

Eighth: Checking also the school certificates in an authentic way

especially for those who come from secondary schools to our college.

Ninth: Solving the problems that may face students co-operatively with the deanery.

Tenth: Checking and supervising the Students' Restaurant to present better service.

Branch Of Quality Assurance

Indeed, this department is concerned with all the college's tasks because it acts well to realize the deanery purposes of following and executing the necessary plans for developing the departments. It deals with

how to get a brilliant academic level and how to sustain the tasks of the college in general to obtain national and international results. Finally, this department encourages highly the culture of warranty

and quality in a progressive way inside AL-Noor Society.

Vision:

The department of quality assurance and academic reliance seeks to achieve excellence, leadership and constant improvement for college staff. These can be done by establishing the principles and concepts of total quality and achieving learning development by following valid, developed and modern means.

The Message:

The department of quality assurance of education and academic reliance is keen to implement quality standards and university performance for college staff. Also, it follows the principles of total quality management (TQM) and International standards (A.S.O) and following modern technical means.

These can go with speedy development in the field of education and reinforce the communication channels among the teaching staff to exchange information and develop the scientific activities according to a better technical scientific system which is based on the plans of the college.

objectives:

1-Establishing learning environments through applying quality assurance and reliance.

2-Preparing a database to evaluate the staff to according to evaluation form.

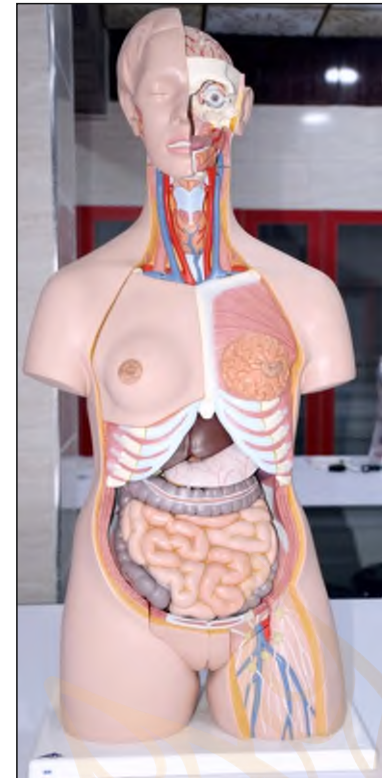

3-Engaging the staff in the field of education through a variety of activities and encouraging the process of scientific research and the participation in conferences, sessions, festivals and workshops.

4-Encouraging to use the modern methods of teaching to raise students' levels.

5-Spreading the culture of technical education quality and academic reliance to get

the international reliance (I.S.O).

6-Developing the college staff in accordance with technical education quality.

Accreditation

Information and Public Relations Division

A brief description

This department is regarded as the college mirror that reflects its activities and reality. Also it is the forefront that receives other media tools and pave their ways to recognize the media point of view.

The department is in charge of the creation, design, and the achievement of all kinds of media prints. Also wording and design the addresses and commercials that the college needs to spread and broadcast.

The media department manages and words all topics that are posted on different sites of the social media including the official college websites in both Arabic and English languages.

The media department supervises and manages the activities of the general type

and in charge of all media cooperative activities. Also the department documents the daily events and activities of the college and its educational and scientific course.

Vision:

The media is the mirror and tongue of the college that spread its activities. The job of the media department is to highlight and to diagnose the scientific and knowledge resources.

Targets

The media department has the ability to extend the bridges among the researchers of our college and other institutes that could be attracted and affected by our media. Also, to widen the horizons of thinking and working in the college.

Message:

The fundamental mission of the media department is to reflect a true picture of the college in order to be seen as it is in reality. This means that the message of

the media department is to take the college to the people and to show them its real picture.

The department of the university campus security consists of the following buildings:

- 1-Information bureau at the entrance of the college including switchboard.
- 2-Inspecting room for females.
- 3-Inspecting room for men.
- 4-Security office containing monitors to control the cameras inside and outside

the buildings.

- 5-A room controlled by cameras to monitor all the buildings.
- 6-A car parking for instructors and students and in front of the college, one can get in by using special magnetic identity when passing electronic gate.
- 7-Information bureau.

The Tasks Of Campus Security

- 1-To guard the outside fence of the campus.
- 2-Providing a secure environment for students.
- 3-Keeping order among students in the campus.
- 4-Inspecting students and

visitors.

- 5-Keeping an eye on students by using cameras.

Department of Law

A brief description

The department of law was founded in 2013 according to the statement of the ministry of higher education and scientific research No.2077IE in 26/5/2013. The number of

students applied in this department was about (242) students in (2013-2014). After the occupation of the city of Mosul by ISIS, the department changed its place

to (Shaikahn) town. The number of graduated students was (190). Then the department came back to Bartilla and continued registering students.

Vision:

The department of law aims at creativity, distinction and it seeks to combine between originality and modernization through spreading the law of education that supports justice achievement and the suitable preparation of qualified graduates to fulfill future positions. By the way, this vision is achieved through theoretical and practical study of one of the theories of law.

Targets

First: Preparing qualified generation of graduates capable of working in Iraqi courts and practice the job as lawyers. Also, to create a generation of excellent officers defending the oppressed people.

Second: preparing annual scientific conferences to serve the society in the legal field.

Third: coordinating with counterpart colleges and NGOs to spread the legal education through

Message:

First: To qualify the law student fully, socially and morally and to support him to lead his society and defend peoples rights.

Second: to provide students with modern knowledge in different legal specialization.

Third: to develop

student skills through the process of scientific skill and researches to prepare a legal generation armed with legal education that serves the society.

meetings, seminars and field visits.

Fourth: Reacting with the updated legal issues through modern techniques and virtual libraries.

Department of Physical Education

A brief description

The physical education Dept. Founded in 26/5/2013 according to the ministerial order GH/2677 issued by the ministry of Higher Education and scientific research. 249 students registered in the first year. Then, the department moved to Al-shekhan district as a result of ISIS control on

Bartilla district. The number of enrolled students reduced to (19) and the number of the graduates in the 4th year has become (109).

The Physical Education Dept. turned back to Bartilla after the liberation of Mosul. During the studying year 2017-2018, (130) students

were enrolled after the return of many of displaced and liberated students. Thirty six students graduated last year. (81) students nowadays are registered in the first and second stages. Some students are waiting for the new studying year (2018-2019) to register in this department.

Vision:

The physical education department achieves the aims of creativity, distinction, pioneering and sharing the efforts of building a sound education system. Also, to prepare and qualify a generation that is scientifically and physically educated.

objectives:

- 1- Preparing qualified graduates to manage the different physical activities and to practice teaching in the department not only in the intermediate and preparatory schools, but also including post-graduate studies.
- 2- Achieving the scientific research in different fields of study.
- 3- Reacting with other counterpart and physical education communities, nationally and internationally to establish common working pillars in scientific researches and other activities.

Message:

- 1To provide students with academic, educational, social and moral qualification to lead and develop their society.
- 2- Spreading knowledge and modern scientific

techniques in different fields of physical education.
3- Developing the students' skills through the process of scientific research to build the true pillars of physical scientific education.

The Main Achievements Of The Department:

- 1- Establishing a modern closed stadium to practice different activities.
- 2- Arranging the department championships in different fields of the study.
- 3- Presenting many scout activities related to the scout Room of the physical education department.

Department of English

A brief Description

The department which was established in 2013 aims to choose the best modern ways of study to supply the directorates of education with staffs of high efficiency

to serve the nation and also to improve the teaching staff performance to improve the students' skills in language fields. The aim is also to provide the society with well-

trained teaching staff members who have been well- trained with modern language teaching methods.

Vision:

The English department is established at Al-Nour university college. It offers a B.A in English. The strategy of department keeps up with development of English teaching as a global language and the language of science. The department regularly reviews the contents of all teaching materials in order to keep up with modern teaching methods, As well as the program offered meets all the standards of high-quality education.

Message:

The English department teaches the student modern English language and teaching methods. Students of the department are learning grammar and arts throughout four stages, as

they are studying all grammar branches, pronunciation, Essay, All literature sections and look forward to teaching method of English language.

objectives:

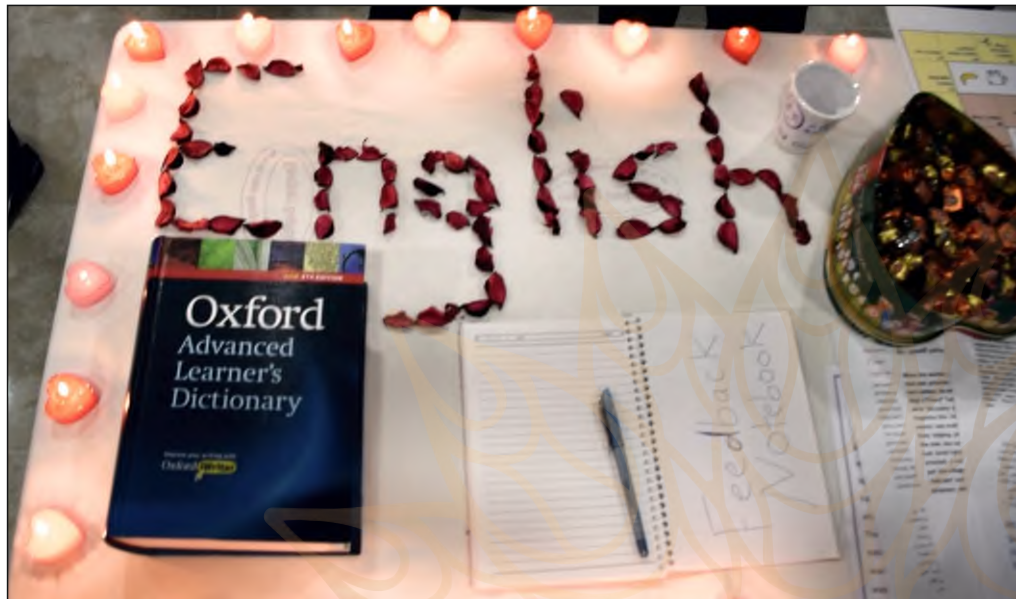

This department aims to prepare graduates who have a bachelor degree in English to be teachers of intermediate and preparatory schools and to enable them to work in public and private fields..

The department gives the bachelor degree in English and its literature. Actually, the college provides the department with labs which are used for educational purposes.

Department of English has

Conducted Several Activities Such as:

- 1- Theatrical representation and the screening of short films.
- 2- The Students are doing to recite poems in Arabic and English.
- 3- Drawing paintings of English literary figures, making educational bulletins, writing words and proverbs of English.
- 4- Show educational video clips.
- 5- Translation of articles, poems, and short stories.
- 6- Presenting educational posters which deal with speaking and pronunciation among humans.

Department of Arabic

A brief Description

The Department of Arabic is one of the earliest departments at Al-Noor University College. It was established in 2013/ 2014. Teaching at this college is the same as teaching at the

College of education. In Iraq, students spend four years studying Arabic grammar and literature for the graduates to be qualified to teach Arabic at intermediate and secondary

schools. Hence, a connection between the contemporary and ancient Arabic is established in addition to studying Arabic literature and its heritage at those glorious times.

Vision:

The department tries to strengthen the talent of innovation to those studying Arabic . Its use is not limited to the purposes of communication, but also to create a generation full of talents like those in other languages of the world.

Message:

The Department of Arabic seeks to prepare scientifically and culturally qualified generations . Such generations will be an extension to the heritage of the nation, setting their minds on the task of advancing the writing and speaking skills of the

language. All this endeavor is for Arabic to be promote a leading position among other languages. Since language is a means of communication, so language should, as well as the mind, be renewed to be able to transfer and develop new ideas.

objectives:

The first aim of the department of Arabic at Al_Noor University College is to graduate well qualified teachers armed with-linguistic and literal knowledge to serve society and to develop education and learning in all levels of study.

Department of Dentistry

A brief Description

The Department of Dentistry was updated at Al-Nour College in 9/10/2017. One of the most important goals is to graduate a generation of dentists that are armed with science and knowledge and able to provide the best treatment services to society according to the latest modern science in the techniques. The duration of the study in this section lasts five years. The students receive a number of basic medical sciences in the

first three stages as well as some important subjects through theoretical lectures offered in laboratories equipped with the latest scientific devices. Also, the students in the last two years study all specialties related to dentistry such as dental treatment, dental industry, oral and maxillofacial surgery, orthodontics, gums and other diseases; whereas the study is theoretical as well as practical where students tackle diseases directly in the dental

educational hospital, which is intended for the purpose of teaching students and to provide the best treatment services developed and free for members of society. when graduated, the student is awarded a bachelor's degree in oral and dental medicine and surgery. Therefore, the student will be armed with science and knowledge, practical training to serve the community in the best possible way.

Vision:

The department aspires to graduate a group of competent and distinguished dentists to take their active role in treating patients with various specialties of dentists at the level of the country.

Message:

Dentistry department will prepare qualified dentists with high skills by offering the best medical services for Iraqi society through the distinguished specialized dentists depending on the professional and humanitarian treatment.

objectives:

The Department of Dentistry aims at creating a gate of knowledge and in the area of mouth and teeth hygiene and to be a centre for medical study based on high criteria of educational outcomes which motivate the teaching staff and the

students to be distinguished and creative through international conferences held in the department and to be attended by bright dentists from Arab and world countries plus holding medical and scientific workshops which shed light

on up-to-date progress in the field of dentistry and inviting famous professors dentists to enrich the knowledge of the staff members and to acquire the latest technical and technological development in the world of medical dentistry.

Department of Medical Lab. Technology

A brief Description

The Medical Lab. Technology Department aims at preparing professional graduates specialized in medical analyses. Marketing and private and public sectors are short of these qualified graduates. Students spend 4 years to get BSc. They study all technological equipment used in lab medical technology adopted in clinical diagnosis plus the scientific background which enables and qualifies them to follow up the latest and up-to-date scientific and technical researches and studies in the area of their specialization. That is, the students study various curricula and methodology in chemistry since it is the core of the medical lab., physiology, microbiology, parasitology, pathology, immunology and

the supporting scientific branches which actively participate in preparing qualified graduates. The college is supplied with a variety of lab equipment starting with simple ones and ending with complicated ones which the students will use in future. These emphasize the

significance of the theoretical part and the scientific lab which is considered as an essential part of the technical education since students practice that in the labs under the supervision of qualified doctors to guarantee the quality performance.

Vision:

Medical Lab. Technology Department is considered as one of the important departments in the Medical group which has a vital role in preparing a qualified cadre in the area of Medical Lab. Technology Department to work in the labs of ministry of Health and private sectors. In addition, the department has undeniable role in supporting the scientific researches.

Message:

Medical Lab. Technology Department was established so as to enhance the scientific development which has a vivid role in diagnosis and remedy of any clinical diagnosis. It also tries to open new horizons of knowledge and pedagogy to create useful linking and correlation with counterpart department so as

to accomplish the diagnosis task in order to get the accuracy and speed in the clinical diagnosis. In addition, it aims to adopt up-to-date research findings and to get benefit from them in the sectors concerned to serve the society in general.

objectives:

1-The Dept. aims at preparing professional graduate cadre specialized in medical lab technology plus being familiar with different types of lab tests so that our graduates after 4 years of studying are able to work in private and public sectors.

2- Our specialized cadres will be capable to carry out clinical diagnosis depending on results of clinical analysis. Accordingly, our graduates can be familiar with scientific and technical progress.

3- Clinical diagnosis will be accomplished through cooperation with other medical branches and departments.

4- Providing the local marketing with qualified and experienced graduates in the

area of general medicine and labs in particular.

5- The emphasis is on seriousness and accuracy in checking, testing and working to get sound results of tests which are useful for medical diagnosis of cases so as to find the fast remedy.

6- The active participation in the scientific researches through making use of department labs in helping staff members and experts to meet the requirements of scientific researches.

Name of the Faculty of Medical Laboratory Techniques

1- Dr. Yassar Yahya AL-Tamer	Prof.
2- Dr. Samir Khalaf Abdullah	Prof.
3- Dr. Ismail Salih Ibrahim Kakey	Prof.
4- Dr. NABEEL AHMED JIRJES	Asst. Prof.
5- Dr. Mona Taha Alnaftachy	Asst. Prof.
6- Dr. Hadi Mohammed Ohymayed	Asst. Prof.
7- Dr. Heba Awad	Asst. lecturer
8- Layth . Y . Qasim	Asst. lecturer
9- Obedah abdlkhaleq abass	Asst. lecturer
10- Eman Ala'a Aldeen Ramadan	Asst. lecturer
11- Suhir Emad Abd - Alrazaq	Asst. lecturer
12- Noor Mamoon Khairi	Asst. lecturer
13- Dina nawfal wajeeth	Asst. lecturer

Name of the Faculty of Medical Laboratory Techniques

14- Zahraa Abdul Monem Raouf	Asst. lecturer
15- Enaam Anad Jabori AL _Jabori	Asst. lecturer
16- Fatima nashwan nather	Asst. lecturer
17- Maryam Abd Alkhaleq Saleh	Asst. lecturer
18- Yazin Ali Taha	Asst. lecturer
19- Zubaida Abdul _ Rahman	Asst. lecturer
20- Hadeel Tareq Saadoon	Asst. lecturer
21- Marah Mohammed Taha	Asst. lecturer
22- Duaa Hussein Omar	Asst. lecturer
23- Amina Jasim Mohammed	Asst. lecturer

Courses

First Stage

General Chemistry
Anatomy and medical terminology
Human biology
Lab . Instrumentation
Medical Ethics
Computer Application
Human Rights & Democracy

Second Stage

Medical microbiology
Clinical Biochemistry
Human Physiology
Histology
Molecular biology
Medical Parasitology

Courses

Third Stage

HISTOPATHOLOGY
Hematology
Virology & Mycology
Clinical Chemistry
Human Genetics
Immunology
Advanced laboratory technique
Computer applications

Fourth Stage

Clinical Immunology
Diagnostic Microbiology
Advanced Clinical biochemistry
Parasitology
Blood Transfuion
Pathology
Research project
Diagnostic Microbiology

Department of Pharmacy

A brief Description

Department of Pharmacy was established in Al-Nour University College in 2018-2019 to participate in developing and teaching various pharmacological success to serve private and public medical sectors. Students of this department spend 5 years to get BSc. In pharmacy. This department is considered as an essential

branch in the medical group. In this department, there is a lot of specialized, qualified and experienced staff members in the field of chemical and pharmacological areas such as pharmacology, toxicology, chemistry of drugs, biology, biostatics, tissues, medical physics, ... etc.
Al Noor University College

buildings embody big halls for theoretical lecturers, various labs for lecturing pharmacy students theoretical, experimental and empirical subjects which are appropriate for curriculum units. These halls and labs are provided with the up-to-date equipment and the required materials in the labs.

Vision:

This department aims to train and prepare empowered human potentials having the highest levels of knowledge, pharmaceutical and medical skills. That enables the efficient, effective and safe use and prescription of medication, as well as developing the best practices of drug manufacturing and the various modern methods of supplying and sending them through the available legal channels.

objectives:

-1The department of pharmacy aims at preparing scientifically and practically well-qualified pharmaceutical cadre to be dispersed throughout the country leading to the improvement of pharmaceutical and health services of the society achieving

Message:

It also aims to train professional, high-skilled and well-qualified pharmacists to offer the society the best pharmaceutical services through the graduated personnel and guarantee professional and humanitarian attitudes.

the safety and wellness of the individual and society.

2-To hold scientific activities like conferences, lectures and scientific research which improve the students' expertise co-operating and coordinating with the relevant institutes.

3-To improve teachers' skills and their scientific achievements by providing the best conditions to conduct scientific researches and to participate effectively with in post-graduate studies, sessions, conferences and symposiums.

Name of the Teaching Staff in the Department of Pharmacy

1- Isam Hamo Mahmood	Dr. Prof.
2- Basil Mohammad Yahya	Dr. Prof.
3- Ahmed Yahya Ahmed	Dr. Prof.
4- Wafaa Modammed Ali	Assistant Professor
5- Sabah Ghanim AL-dabbagh	Assistant Professor
6- Shakir Mahmood Saied	Assistant Professor
7- ISRAA ABDULJABBAR	Lecturer
8- SIDDEEK BAKR MARIE	Lecturer
9- Bahjat Saeed Issa	Assistant Lecturer
10- Nada Khairi Younus	Assistant Lecturer
11- Waseem M. Gameel Hasan	Assistant Lecturer
12- Dolbareen Hikmat Abdulqader	Assistant Lecturer
13- Yasir Abdulameer Abdullah	Assistant Lecturer

Clinical Chemistry
Clinical Laboratory Training
Clinical Toxicology
Industrial Pharmacy- II
Organic Pharm. Chemistry- IV
Graduation project

Second Semestr

Advanced Pharmaceutical Analysis
Applied Therapeutics- II
Dosage Form Design
Hospital Training
Pharmacoeconomic
Therapeutic Drug Monitoring (TDM)
Pharmaceutical Biotechnology

Department of Radiology and Ultrasonography Techniques

A brief Description

Department of Technical Radiology And Ultrasound Was established In AL - Noor university College In 2018 - 2019 to participate in teaching various medical success to serve private and public medical sectors.

Students of this Department spend 4 years To get BSC . In Technical Radiology and Ultrasound AL - noor University College building embody big halls for theoretical Lecturers , versions LABS which are

appropriate for curriculum units .

These halls and LABS are provided with up - to - date equipment and the required materials in the labs.

Vision:

Radiology and Ultrasonography are the third human eye by which one can observe defects found in the human complexion. This new eye achieves an appropriate diagnosis which helps the physician evade mixing the alimantal cases up which seem to be alike or relatively identical in their symptoms.

objectives:

It trains and prepares the cadre who can deal with the techniques and apparatus of radiology and ultrasonography and recognizing the component parts of the human body so as to excel in diagnosis and reduce the possibilities of error.

NB: the teaching plan is available only in Arabic.

Message:

It achieves enough time brevity in the diagnosis and guides the surgeons toward the exact places where the surgeon needs to

deal with and help the patient get the medical advice that leads him to be healthy.

The Names Of The Teaching Staff of Radiology Department And Sonar

1- Ali Ahmed Hassan	Asst. lecturer
2- Saleh Isa Mohammad	Asst. prof
3- Aala Abdulateef Salih	Asst. lecturer
4- Myasar Mohsin Azeez	Asst. lecturer
5- Tareq Salim Abbo Qaba	prof.
6- Iman Hazim Jirjees	Asst. lecturer
7- Sabah Yousif hasan	prof.
8- Siham Jasim abdullah	lecturer
9- Hala – moner Yahya	Asst. lecturer

Courses

Workshop of Optical Technique

Prosthetic Dental Technology

A brief Description

In the department of dental industry, the study started in 2018/2019 by the admission of the first group. This department aims at training

and preparing scientifically qualified medical cadres to comprehend and manage the technicalities in the field of dental industry and to be

creative in it after a four-year preliminary study after which the students graduate to specialize as dental technicians.

Vision:

God created man in a perfect shape, and it is well-known that human teeth reflect the harmony of his shape, and due to aging and carelessness, they tend to decay. Hence, appear the needs for alternative artificial dental appliances. As such, the establishing of this scientific field stems from those needs.

Objectives:

One of the important aims of the dental industry is to draw a smile on the face of those who lost it as well as empowering them to overcome shyness and to provide them with efficient dental appliances matching the ones they lost to strengthen the elements of health preservation.

Message:

Today, the dental industry lies in the modern field of scientific discoveries and accordingly, the department seeks to make use of these discoveries by training specialized cadres to achieve

and improve this mission.

The Names Of The Teaching staff Of Dental Industry Techniques

1- Wael Sheet Hussein	Asst. prof
2- Hiba Nawaf Ahmed	Lecturer
3- Farah Qahtan Younis	Lecturer
4- Ammar masood bilal	Asst. lecturer
5- Raad Abdulhamid Abdulgany	Asst. lecturer
6- Roj Aziz Atroshi	Asst. lecturer

The Department of Technical optics

A brief Description

The sound vision of the individual leads to the performance of the best ways and achieves the best consequences.

For this purpose the Department of Optics .Technologies aims at

educating and training individuals to be optometric technicians and opticians. Developing a program is recognized for excellence and innovation in opticianry and optometric technology. Teaching skills which enable

graduates to be proficient in the optical theory . In addition to encourage faculty to continue developing current and innovative teaching materials.

Vision:

The basic role of individual is to interact with his society and that is by looking clearly and adequately for creation and innovation. Every one should take his role adequately in the society's, as to meet the needs and develop his abilities to serve it. In this case, technical optics should take his role and influence the whole society.

objectives:

The main aim of Technical optics is to prepare scientific teaching staff having the ability to innovate and work in different spheres as the correctness of sight and show the limit of degree of sight, as well as treating cross-eyed people, suggesting eye-lenses and finally can make alternatives.

Message:

This message is to help and cure those having eye-weakness as well as to create qualified and brilliant cadres. The message in fact

is to decrease the harms of people as well as to treat short sight or myopia.

Name of the Teaching Staff in the Department of Technical Optics

1- Ismail Khalaf abbas	Asst. Professor
2- Zinah Ahmed Mohammed	lecturer
3- Alaa Issa Hussein	Asst. lecturer
4- Ibrahim Ahmed Abdullah	prof
5- Warkaa Faraj Ahmad	lecturer
6- Ali Younis Saleh	Asst. lecturer
7- Imtithal Ali	Asst. lecturer
8- Huda Masood Mohammed	lecturer

Courses

First Stage

Workshop of Optical Technique

Anesthesia Department

A brief description

Department of aesthetic techniques is regarded as one of the recent departments at AL-Noor college.

The launching of this initiative represents an endeavor to respond to the increasing needs for such specialty in a way that would achieve efficiency and balance among surgeons and aestheticians.

Through the foundation of this department the college is seeking to provide health institutions with specialized personnel in various fields of aesthetic techniques and intensive care in surgical operation theatres, in addition to qualifying them to practice effectively this vital profession. Graduates of this department is

granted the title “Medical technician specialized in aesthetics”

Graduates of the department will be engaged in fields of aesthetics, follow up on patients, clinical observation, and on the operation of aesthetic devices and finally to follow up the cases of patients in awakening and intensive care units.

Vision:

The department vision is based on the actual needs of the health sector to anesthetic cadres operating in such vital specialty and to achieve the required sufficiency and balance between surgeons and anesthesiologists.

objectives:

To provide specialized cadres to work in the fields of anesthetic techniques and intensive care in surgery room and intensive care units.

Message:

The anesthetic cadres are responsible for fifty percent of the tasks required from the medical cadres to safeguard patients' lives, since they are responsible for providing the safest surgical practices. as

well as the necessity for the anesthesiologist to identify the patient's medical condition, and accordingly measure the appropriate dosage.

The Names Of The Teaching Staff in The Department Of Anesthesia Techniques

1- Mohaned Ahmed Ali	Asst. Prof
2- Abdul ghany Mohammed	Asst. Prof
3- SAJIDA SHAREEF HUSSEIN	Asst. Prof
4- Saja Esmaeel Khaleel	Lecturer
5- Tuka Al _ Sawaf	Lecturer
6- Manhael Abdulraheem	Lecturer
7- Sumaya Sami Ahmed	Asst. Lecturer
8- Entesar ahmed Sulliman	Asst. Lecturer
9- Zahraa Khazal Hamdoon	Asst. Lecturer
