# Introduction

Prologue Publishing a guidebook for each establishment is a reflected mirror of the establishment's activities and visions, in which it introduces everything about the establishment such as its departments, functions, staff, system and so on. Hence, the guidebook is regarded as a mini image which enables everyone to view the establishment in distance. Al-Noor University College decided to issue a guidebook which represents a real image during each stage of its journey and introducing a good review about the college. It also provides enough information about the college staff in order to enable other universities, establishments and research centers to contact anyone of them. We are pleased to introduce the second edition of the college guidebook for 2021. Finally, we wish that it would be enough for those who wish to know more information about the college

# Deanm`s Speech

The private universities and colleges play an important role in supporting the governmental universities, since they are not able to accept large numbers of students who passed the high school. Therefore, the private colleges fill this gap by providing admissions for those students. In addition to that, they give the chance for those who wish to study at universities, but their age or grades are not good enough, so they would not be accepted in their favorite specializations. Al-Noor University College is one of such universities, that aims to get an advanced rank in the higher education field through attracting the specialized lecturers who have an experience in the research and teaching fields. The college issued the second edition of its guidebook in order to enable those who wish to have an overview about the college.

Prof. Dr. Yassin Taha Al-Hajjar  
Dean of the College

# Members of College Council

1- Prof.Dr.Yassen Taha Mohammed Ali Hussein Al-Hajjar	the Dean
2- Prof.Dr.Sameer Khalaf Abdulla Hussein Al-Hussein	Assistant Dean for scientific Affiars
3- Dr.Nabeel Ahmed Jurjees Ahmed Al-Husary	Assistant Dean for Administration Affairs
4 Prof.Dr.Yasser Yahya Hussein Abdulla Al-Tamer	Head of the department of Medical Laboratory Techniques
5- Prof.Dr.Issam Hammo Mahmood Shihab Al-Dabbagh	Head of the department of Pharmacy

# AL-Noor University College Guide

Al-Noor University College has been established on the land of Nineveh in 2013 to enrich the higher education system in the governorate by providing a private academic institution carrying the very message of the state colleges . This college expands the horizons of student's admission and opens new windows for those wishing to complete their university studies.

The college currently includes twelve scientific departments:- (1) the medical group includes dentistry and pharmacy departments, (2) the medical technologies include medical laboratories, dental industry, radiology & ultrasound, anesthesia, and

optics departments, and (3) the humanities include law, physical education, English and Arabic departments .

Experienced and well-known staff-members teach in the college, they hold the highest degrees and have a long and prestigious experience. The college employs an experienced and efficient administrative and technical staff. Al-Noor University College provides scientific laboratories equipped with the latest technologies. The

latest educational means are available to theoretical lecture halls. In addition, there are a number of air-conditioned and furnished dormitories.

The college works on achieving the goals of Iraqi higher education in the major scientific and social fields. i.e. Students are well-prepared scientifically by encouraging them to engage in enhancing the scientific researches and serving the society.

- 9- Department of dental techniques**
- 10 - Department of optometry techniques**
- 11- Department of anesthesia techniques**
- 12- Department of Construction Engineering and Project**

## The Teaching System:

The teaching system in Al-Noor University College follows the instructions of the Ministry of Higher Education in Iraq. Hence the students join the college according to the same procedure in governmental universities. So the students should have the high school certificate to get admission in the college.

The duration of study in the college is five years for Dentistry and Pharmacy departments, and four years for the other departments, hence the students will get a bachelor degree in their specialty when they pass the final year for morning and evening classes.

# Vision:

The college prepare the students scientifically and develop their practical skills to be able to meet labour and production demands, in order to elevate and develop the society through permanent providing of efficient staffs.

# Goals:

Firstly: the college aims to achieve higher education goals by preparing the students to be able to occupy their positions in management, labour and production sectors.

Secondly: providing the students by the most modern information and discoveries in their fields.

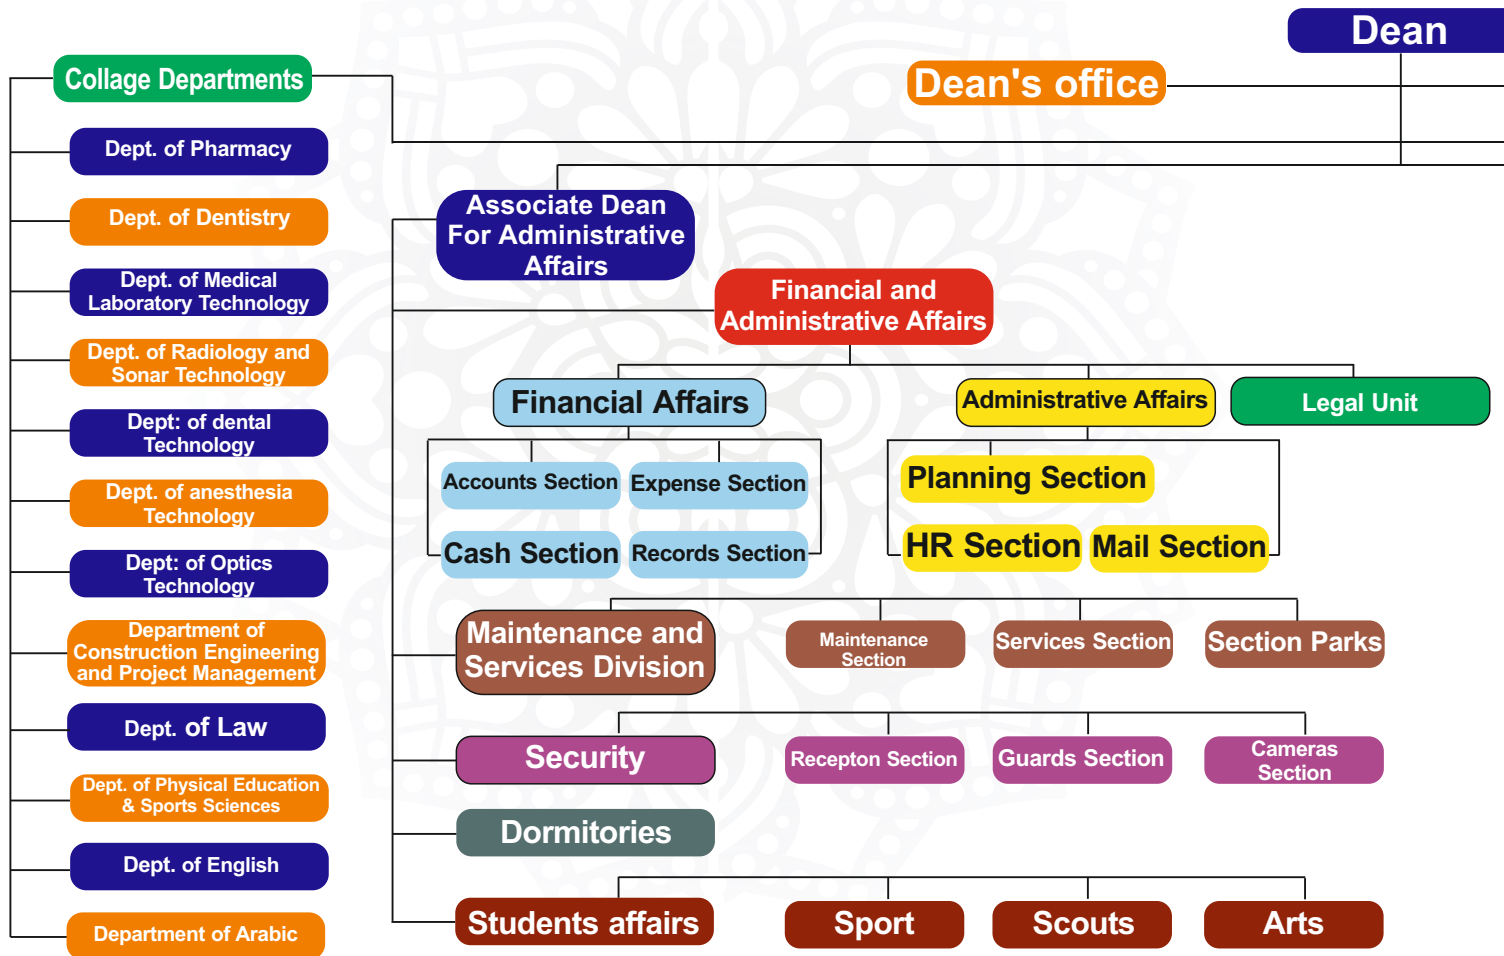

# Message:

Firstly: meeting society needs for specialites, and determining labour market through questionnaires, scans, and field readings.

Secondly: providing labs furnished with the most modern scientific devices according to the demanded standards and preparing a suitable environment for the students.

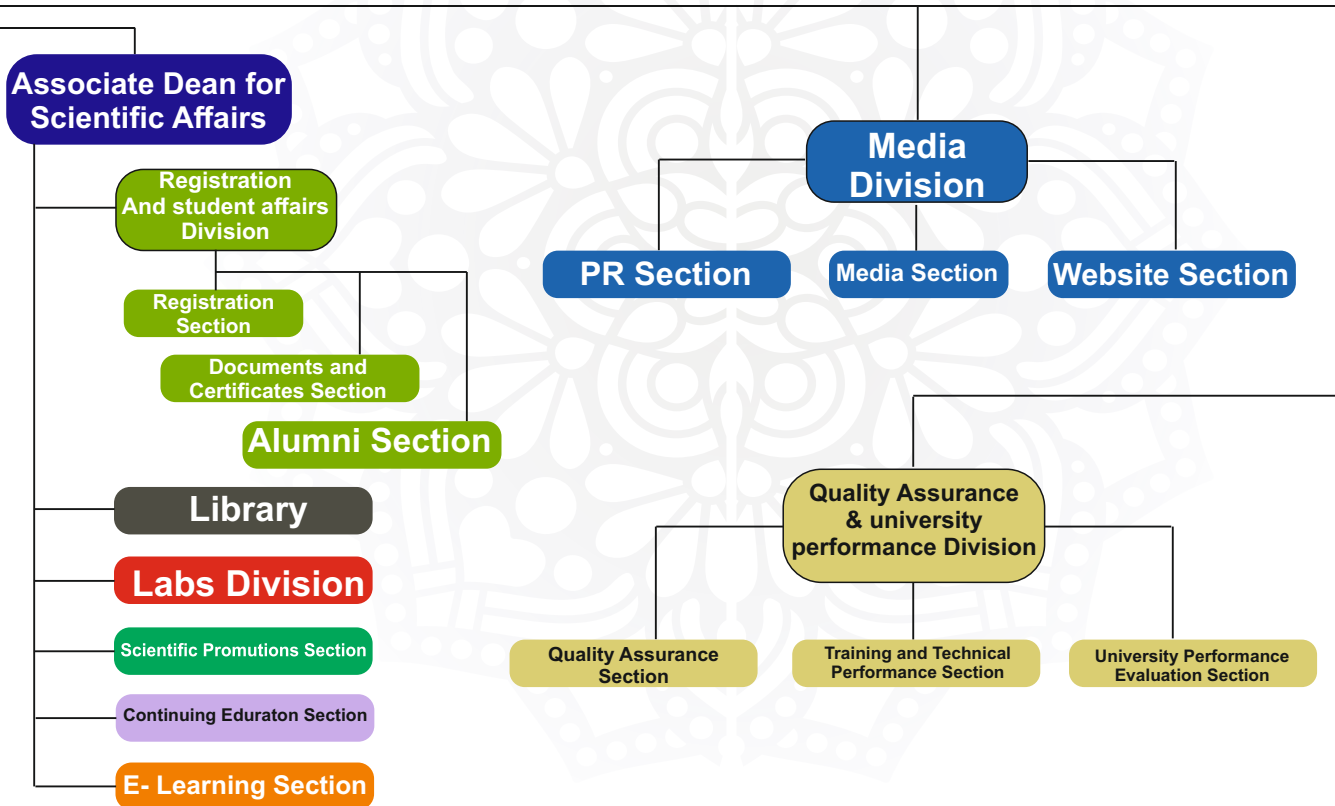

Thirdly: training the students to use the developed and modern devices and familiarizing them to the new discoveries and techniques in their fields.

# Organizational

# Chart

internal audit

# Management Affair Section:

Management affair section is regarded as one of the most important sections in Al-Noor University College which is associated directly with the dean. It includes excellent well-trained employees.

It is regarded as one of the basic administrative sections in the college and the first episode, out of which all the administrative and legal procedures are started regarding employing and the procedures which follow it during their existence in the establishment. Furthermore, to print and issue letters and instructions which determine the boundaries of work and

transfer decisions and instructions to the staff.

## The Tasks:

First: Administrating human resources affairs in the College.

Second: Organizing and functionalizing personal files, and preparing full data of the permanent and temporary staff.

Third: Enriching statistical tables concerning the staff and renewing them.

Fourth: Checking times of the staff working (their sick and traditional leaves through finger print system and other archives according to College's regulations.

Fifth: Checking the

procedures of lawful affairs of procedures of the College in other formal and non-formal institutions and courts.

Sixth: Establishing electronic archives for personal files and for out and in mails and for general keeping.

Seventh: Printing the address, the administrative orders which are dispatched of the college. Organizing also other works among the units and other departments in simple technique.

Eighth: Helping and Sustaining all other departments to facilitate the college business.

# Registering Branch and Students Affairs:

This branch started its business since 2013-2014 where every thing is related to receiving, registering students and accepting them. Actually this branch continued well. About 662 male and female students were accepted at that time, and were distributed to many different departments: (Law, English, Arabic, and Physical Education, morning and evening studies of first grade).

We soon found a solution to our students after their migration to different Iraqi provinces north and south of it. Therefore, they ended their final year Examination (2013-2014).

Co-Operative process with official:

Universities appreciated this by

the Ministry of Higher Education and Scientific Research, Private Teaching.

In 2014-2015, the Formal study continued in the Al-Noor College in replaced building at Al-Sheikhan province. About (173) students were accepted to be distributed in all department. The study thus has been continued in this building for two years fill the liberation of Nenevah Governorate.

After the liberation of all Nenevah parts including Bertla province, the new building was completely prepared and students were accepted for the year 2017-2018.

Here, New Scientific departments were opened (Dentistry morning study),

Pathology morning and evening study, Pathology is considered one of the departments of the Technique of Medicine. In this respect, six hundred and ninety two students- male and female were accepted.

This department continues successfully its work.

Registering branch and Student's Affairs is now ready to present all logistic requirements, Teaching Staff, and Cadres received successfully the 2018-2019 students in Al- Noor College area.

It should be mentioned that new departments will be opened as: (Pharmacy, Radiology, Anaesthesia, Dental Industry and Optics).

# Duties Of The Registration and Students Affairs

First: receiving and registering the new students according to the official regulations of the office of the Higher Education-private teaching.

Second: Establishing special data files for students.

Third: Giving all the scientific and human departments patterns of the administrative regulations including the lists of the new accepted students yearly.

Forth: Following accurately all the concerned business such as (delaying-expelling failure- transfer- supplementary accepted

students in the college).

Fifth: Checking school certificated electronically through the Ministry's electronic location.

Sixth: Putting the students' files in electronic archives.

Seventh: Giving appreciated signs for students' continual study and other certificates proving their graduation.

Eighth: Checking also the school certificates in an authentic way especially for those who come from secondary schools

to our college.

Ninth: Solving the problems that may face students co-operatively with the deanery.

Tenth: Checking and supervising the Students' Restaurant to present better service.

# Branch Of Quality Assurance

Indeed, this department is concerned with all the college's Tasks because it acts well to realize the deanery purposes of following and executing the necessary plans for developing the departments. It deals with

how to get brilliant academic level and how to sustain the tasks of the college in general to obtain national and international results. Finally, this department encourages highly the culture of warranty

and quality in a progressive way inside AL-Noor Society.

## Vision:

The department of quality assurance and academic reliance seeks to achieve excellence, leadership and constant improvement for college staff. These can be done by establishing the principles and concepts of total quality and achieving learning development by following valid, developed and modern means.

## The Message:

The department of quality assurance of education and academic reliance is keen to implement quality standards and university performance for college staff. Also, it follows the principles of total quality management (TQM) and International standards (A.S.O) and following modern technical means.

These can go with speedy development in the field of education and reinforce the communication channels among the teaching staff to exchange information and develop the scientific activities according to a better technical scientific system which is based on the plans of the college.

# Objectives:

1-Establishing learning environments through applying quality assurance and reliance.

2-Preparing a database to evaluate the staff to evaluate the staff according to evaluation form.

3-Engaging the staff in the field of education through a variety of activities and encouraging the process of scientific research and the participation in conferences, sessions, festivals and workshops.

4-Encouraging to use the modern methods of teaching to raise students' levels.

5-Spreading the culture of technical education quality

and academic reliance to get the international reliance (I.S.O).

6-Developing the college staff in accordance with technical education quality.

# Information and Public Relations Division

## A brief description

This department is regarded as the college mirror that reflects its activities and reality. Also it is the forefront that receives other media tools and pave their ways to recognize the media point of view.

The department is in charge of the creation, design, and the achievement of all kinds of media prints. Also wording and design the addresses and commercials that the college needs to spread and broadcast.

The media department manages and words all topics

that are posted on different sites of the social media including the official college websites in both Arabic and English languages.

The media department supervises and manages the activities of the general type and in charge of all media cooperative activities. Also the

department documents the daily events and activities of the college and its educational and scientific course.

## Vision:

Media is the mirror and tongue of the college that spread its activities. The job of the media department is to highlight and to diagnose the scientific and knowledge resources.

## Message:

The fundamental mission of the media department is to reflect a true picture of the college in order to be seen as it is in reality. This means that the message of

the media department is to take the college to the people and to show them its real picture.

## Targets

The media department has the ability to extend the bridges among the researchers of our college and other institutes that could be attracted and affected by our media. Also to widen the horizons of thinking and working in the college.

# Al-Noor University College Library

The collage Central Library is linked to the Media Section and includes a wide range of academic and assistance books in addition to books that develop the

general culture of students. The collage has designated a wide reading room and put in place appropriate mechanisms to facilitate students access to what they

want from books, whether for internal or external borrowing.

# Central research Laboratory

This laboratory was established in the year 2019 and includes two departments : the animal House and the Analytics Laboratory . This

laboratory has been established to facilitate the conduct of scientific research for the collage professors in the field of their medical and scientific

specialization , as well as provide the students with early experience and knowledge of the reality of their fields of work .

# Students activates department

This department has been established in 2019. It sponsors student's talents in the fields of cultural and sport creativity. And develops them in local and national competitions. This department has held numerous exhibitions in the field of plastic art, drawing, sculpture, calligraphy and

photography. It also presents the AL Noor annual competition of student creativity, which is an annual tradition in which the collage students compete in the genres of short story ,poetry, rhetoric , painting , sculpture , ceramics , calligraphy and essay .It also held successive championship in chess ,

Ping-Pong and five-a-side football.

# Maintenance and Servicc Division

## 1 Maintenance Department

## 2 Service and Cleaning Department

## 3 Gardening Department

## 4 Vehicles and Machinery Department

### Maintenance Department

The personnel in this unit provide maintenance work in electricity, blacks mithing, and carpentry as required by the college

### Service and Cleaning Department

The staff are responsible for performing services and keeping the departments of the college clean

### Gardening Department

T h i s department provides gardening services including cleaning,plantin g and,maintenanc

### Vehicles and Machinery Department

T h e vehicles,generat ors,and all other equipment of the college are repaired in this department

# The Department Of The University Campus Security

The administrative cadres of campus security.

- 1-The one who is responsible for security.
- 2-Security Guards.
- 3-Receptionist.
- 4-Female Inspector.
- 5-Male Inspector.

The department of the university campus security consists of the following buildings:

- 1-Information bureau at the entrance of the college including switchboard.
- 2-Inspecting room for females.
- 3-Inspecting room for men.
- 4-Security office containing monitors to control the cameras inside and outside

the buildings.

- 5-A room controlled by cameras to monitor all the buildings.
- 6-A car parking for instructors and students and in front of the college, one can get in by using special magnetic identity when passes electronic gate.
- 7-Information bureau.

The Tasks Of Campus Security

- 1-To guard the outside fence of the campus.
- 2-Providing a secure environment for students.
- 3-Keeping order among students in the campus.
- 4-Inspecting students and

visitors.

- 5-Keeping an eye on students by using cameras.

# The Department of Law

## A brief description

The department of law was founded in 2013 according to the statement of the ministry of higher education and scientific research No.2077IE in 26/5/2013. The number of

students applied in this department was about (242) students in (2013-2014). After the occupation of the city of Mosul by ISIS, the department changed its place

to (Shaikahn) town. The number of graduated students was (190). Then the department came back to Bartilla and continued registering students.

## Vision:

The department of law aims at creativity, distinction and it seeks to combine between originality and modernization through spreading the law of education that supports justice achievement and the suitable preparation of qualified graduates to fulfill future positions. By the way, this vision is achieved through theoretical and practical study of one of the theories of law.

## Message:

First: To quality the law student fully, socially and morally and to support him to lead his society and defend peoples rights.

Second: to provide students with modern knowledge in different legal specialization.

Third: to develop

student skills through the process of scientific skill and researches to prepare a legal generation armed with legal education that serves the society.

## Targets

First: Preparing qualified generation of graduates capable of working in Iraqi courts and practice the job as lawyers. Also, to create a generation of excellent officers defending the oppressed people.

Second: preparing annual scientific conferences to serve the society in the legal field.

Third: coordinating with counterpart colleges and NGOs to spread the legal education through

meetings, seminars and field visits.

Fourth: Reacting with the updated legal issues through modern techniques and virtual libraries.

## Names of Faculty of Law

# Physical Education and Sport Sciences

## A brief description

The physical education Dept. Founded in 26/5/2013 according to the ministerial order GH/2677 issued by the ministry of Higher Education and scientific research. 249 students registered in the first year. Then, the department moved to Al-shekhan district as a result of ISIS control on

Bartilla district. The number of enrolled students reduced to (19) and the number of the graduates in the 4th year has become (109).

The Physical Education Dept. turned back to Bartilla after the liberation of Mosul. During the studying year 2017-2018, (130) students

were enrolled after the return of many of displaced and liberated students. Thirty six students graduated last year. (81) students nowadays are registered in the first and second stages. Some students are waiting for the new studying year (2018-2019) to register in this department.

## Vision:

The physical education department peruses the aims of creativity, distinction, pioneering and sharing the efforts of building a sound education system. Also, to prepare and qualify a generation that is scientifically and physically educated.

## Message:

-1 To provide students with academic, educational, social and moral qualification to lead and develop their society.  
2- Spreading knowledge and modern scientific

techniques in different fields of physical education.  
3- Developing the students' skills through the process of scientific research to build the true pillars of physical scientific education.

## Objectives:

- 1- Preparing qualified graduates to manage the different physical activities and to practice teaching in the department not only in the intermediate and preparatory schools, but also including post-graduate studies.
- 2- Achieving the scientific research in different fields of study.
- 3- Reacting with other counterpart and physical education communities, nationally and internationally to establish common working pillars in scientific researches and other activities.

# The Main Achievements Of The Department:

- 1- Establishing a modern closed stadium to practice different activities.
- 2- Arranging the department championships in different fields of the study.
- 3- Presenting many scout activities related to the scout Room of the physical education department.

# English Language Department

## A brief description

The department which was established in 2013 aims to choose the best modern ways of study to supply the directorates of education with staffs of high efficiency

to serve the nation and also to improve the teaching staff performance to improve the students' skills in language fields. The aim is also to provide the society with well-

trained teaching staff members who have been well- trained with modern language teaching methods.

## Vision:

The English department is established at Al-Nour university college. It offers a B.A in English Language. The strategy of department keeps up with development of English teaching as a global language and the language of science. The department regularly reviews the contents of all teaching materials in order to keep up with modern teaching methods, As well as the program offered meets all the standards of high-quality education.

## Message:

The English department teaches the student modern English language and teaching methods. Students of the department are learning grammar and arts throughout four stages, as

they are studying all grammar branches, pronunciation, Essay, All literature sections and look forward to teaching method of English language.

## Objectives:

This department targets to prepare graduates who have a bachelor degree in English to be teachers of intermediate and preparatory schools and to enable them to work in public and private fields..

The department gives the bachelor degree in English and its literature. Actually, the college provides the department with labs which are used for educational purposes.

# The Department Of English Has

## Conducted Several Activities Such As:

- 1- Theatrical representation and the screening of short films.
- 2- The Students are doing to recite poems in Arabic and English.
- 3- Drawing paintings of English literary figures, making educational bulletins, writing words and proverbs of English.
- 4- Show educational video clips.
- 5- Translation of articles, poems, and short stories.
- 6- Presenting educational posters which deal with speaking and pronunciation among humans.

# The Department Of Arabic Language

## A brief description

The Department of Arabic is one of the earliest departments at Al-Noor University College. It was established in 2013/ 2014. Teaching at this college is the same as teaching at the

College of education. In Iraq, students spend four years studying Arabic grammar and literature for the graduates to be qualified to teach Arabic at intermediate and secondary

schools. Hence, a connection between the contemporary and ancient Arabic is established in addition to studying Arabic literature and its heritage at those glorious times.

## Vision:

The department tries to strengthen the talent of innovation to those studying Arabic . Its use is not limited to the purposes of communication, but also to create a generation full of talents like those in other language of the world.

## Message:

The Department of Arabic seeks to prepare scientifically and culturally qualified generation. Such a generation will be an extension to the heritage of the nation, setting their minds on the task of advancing the writing and speaking skills of the

language. All this endeavor is for Arabic to be promoted a leading position among other languages. Since language is a means of communication, so language should, as well as the mind, be renewed to be able to transfer and develop new ideas.

## Objectives:

The first aim of the Department of Arabic at Al\_Noor University College is to graduate well qualified teachers armed with linguistic and literal knowledge to serve Society and to develop education and learning in all levels of study.

# Names Of The Faculty Of Arabic Department

1. Dr.Kha'al Fathi Zaidan Hassan Al-Badrani	Professor
2. Dr.Thannoon Younis Mustafa Ghazal	Professor
3. Dr.Ahmed Hussein Muhammed Kanno	Professor
4. Dr.Khalid Ma'yoof Mahmood Allawi	Assistant professor
5. Dr.Hayder Mahmood Abdui-Razzaq Younis	Lecturer
6. Jassim Khalaf Elyas'ltran	Lecturer

# Department of Dentistry

## A brief description

The Department of Dentistry was updated at Al-Nour College in 9/10/2017. One of the most important goals is to graduate a generation of dentists that are armed with science and knowledge and able to provide the best treatment services to society according to the latest modern science in the techniques. The duration of the study in this section lasts five years. The students receive a number of basic medical sciences in the

first three stages as well as some important subjects through theoretical lectures offered in laboratories equipped with the latest scientific devices. Also, the students in the last two years study all specialties related to dentistry such as dental treatment, dental industry, oral and maxillofacial surgery, orthodontics, gums and other diseases; whereas the study is theoretical as well as practical where students tackle diseases directly in the dental

educational hospital, which is intended for the purpose of teaching students and to provide the best treatment services developed and free for members of society. when graduated, the student is awarded a bachelor's degree in oral and dental medicine and surgery. Therefore, the student will be armed with science and knowledge, practical training to serve the community in the best possible way.

## Vision:

The department aspires to graduate a group of competent and distinguished dentists to take their active role in treating patients with various specialties of dentists at the level of the country.

## Message:

Dentistry department will prepare qualified dentists with high skills by offering the best medical services for Iraqi society through the distinguished specialized dentists depending on the professional and humanitarian treatment.

## Objectives:

The Department of Dentistry aims at creating a gate of knowledge and in the area of mouth and teeth hygiene and to be a centre for medical study based on high criteria of educational outcomes which motivate the teaching staff and the

students to be distinguished and creative through international conferences held in the department and to be attended by bright dentists from Arab and world countries plus holding medical and scientific workshops which shed light

on up-to-date progress in the field of dentistry and inviting famous professors dentists to enrich the knowledge of the staff members and to acquire the latest technical and technological development in the world of medical dentistry.

# Name of Teaching Department of Dentistry

1- Dr. Talal Hameed Hohamed Selman	Professr
2- Dr.Abdul-Khaliq Qassim Muhammad Al-Seikh	Professr
3- Dr.Rafid Kamal Jameel Sa'dallah	Professr

# Department of Medical Lab. Technology

## A brief description

The Medical Lab. Technology Department aims at preparing professional graduates specialized in medical analyses. Marketing and private and public sectors are short of these qualified graduates. Students spend 4 years to get BSc. They study all technological equipment used in lab medical technology adopted in clinical diagnosis plus the scientific background which enables and qualifies them to follow up the latest and up-to-date scientific and technical researches and studies in the area of their specialization. That is, the students study various curricula and methodology in chemistry since it is the core of the medical lab., physiology, microbiology, parasitology, pathology, immunology and

the supporting scientific branches which actively participate in preparing qualified graduates. The college is supplied with a variety of lab equipment starting with simple ones and ending with complicated ones which the students will use in future. These emphasize the

significance of the theoretical part and the scientific lab which is considered as an essential part of the technical education since students practice that in the labs under the supervision of qualified doctors to guarantee the quality performance.

## Vision:

Medical Lab. Technology Department is considered as one of the important departments in the Medical group which has a vital role in preparing a qualified cadre in the area of Medical Lab. Technology Department to work in the labs of ministry of Health and private sectors. In addition, the department has undeniable role in supporting the scientific researches.

## Message:

Medical Lab. Technology Department was established so as to enhance the scientific development which has a vivid role in diagnosis and remedy of any clinical diagnosis. It also tries to open new horizons of knowledge and pedagogy to create useful linking and correlation with counterpart department so as

to accomplish the diagnosis task in order to get the accuracy and speed in the clinical diagnosis. In addition, it aims to adopt up-to-date research findings and to get benefit from them in the sectors concerned to serve the society in general.

## Objectives:

1-The Dept. aims at preparing professional graduate cadre specialized in medical lab technology plus being familiar with different types of lab tests so that our graduates after 4 years of studying are able to work in private and public sectors.

2- Our specialized cadres will be capable to carry out clinical diagnosis depending on results of clinical analysis. Accordingly, our graduates can be familiar with scientific and technical progress.

3- Clinical diagnosis will be accomplished through cooperation with other medical branches and departments.

4- Providing the local marketing with qualified and experienced graduates in the

area of general medicine and labs in particular.

5- The emphasis on seriousness and accuracy in checking, testing and working to get sound results of tests which are useful for medical diagnosis of cases so as to find the fast remedy.

6- The active participation in the scientific researches through making use of department labs in helping staff members and experts to meet the requirements of scientific researches.

## of the names of the faculty of medical laboratory techniques

1- Dr. Samir Khalaf Abdullah	Professor
2- Dr. Nabeel Ahmed Jorjees	Assistant Professor
3- Dr. Yassar Yahya Husain	Professor
4- Dr. Mhammed Ahmed Najeeb	Assistant Professor
5- Dr. Muna Taher Mohmmmed	Assistant Professor
6- Dr. Hadi Mohammed	Assistant Professor
7- Dr. Ismail Salih Ibraheem	Assistant Professor
8- Dr. Siddik Bakir Marie	Lecturer
9- Dr. Shakir Mhmood Saeed	Assistant Professor
10- Dr. Mohammed Nadheer	Assistant Professor
11- Dr. Tuka Moaed Bakir	Lecturer
12- Jamal Mohammed Husain	Assistant Lecturer
13- Amenah Jasim Mohammed	Assistant Lecturer
14- Inaan Inad Jabbori	Assistant Lecturer
15- Laith Yaseen Qasim	Lecturer
16- Marah Mohammed Taha	Assistant Lecturer
17- Hadeel Tarik Sadoon	Assistant Lecturer
18- Fatimah Nashwan Nadheer	Assistant Lecturer
19- Doaa Husain Omer	Assistant Lecturer
20- Raed Burhan	Assistant Lecturer
21- Mays Nabeel Mohammed	Assistant Lecturer

## of the names of the faculty of medical laboratory techniques

22- Aws Samim Ayoob	Assistant Lecturer
23- Khalid Waleed Abdulqader	Assistant Lecturer
24- Marwa Mohamed	Assistant Lecturer
25- Intisar Yaseen Kasim	Lecturer
26- Talal Aziz	Assistant Lecturer
27- Bashar Rasim	Assistant Lecturer
28- Omer Mohammed Hameed	Assistant Lecturer
29- Alyaa Hussein Ali	Assistant Lecturer
30- Reyam Thamer Ghazi	Assistant Lecturer
31- Bashar Abdullah Saeed	Lecturer
32- Noori Taha	Assistant Lecturer
33- Amenah Ismael Abdulhameed	Assistant Lecturer
34- Malak Jafer	Assistant Lecturer
35- Dalal Abdulla Fathi	Assistant Lecturer

# Department of Pharmacy

## A brief description

Department of Pharmacy was established in Al-Nour University College in 2018-2019 to participate in developing and teaching various pharmaceutical Subjects to serve private and public medical sectors. Students of this department spend 5 years to get BSc. in pharmacy. This department is considered as an essential

branch in the medical group. In this department, there is a lot of specialized, qualified and experienced staff members in the field of chemical and pharmaceutical areas such as pharmacology, toxicology, chemistry of drugs, biology, biostatics, Histology, medical physics, ... etc.

Al Noor University College

buildings embody big halls for theoretical lecturers, various labs for lecturing pharmacy students theoretical, experimental and empirical subjects which are appropriate for curriculum units. These halls and labs are provided with the up-to-date equipments and the required materials in the labs.

## Vision:

To train and prepare empowered human potentials having the highest levels of knowledge, pharmaceutical and medical skills. That in turn enables the efficient, effective and safe use and prescription of medication, as well as developing the best practices of drug manufacturing and the various modern methods of supplying and sending them through the available legal channels.

## Objectives:

1-The department of pharmacy aims at preparing scientifically and practically well-qualified pharmaceutical cadre to be dispersed through out the country leading to the improvement of pharmaceutical and health services of the society achieving

## Message:

To train professional, high-skilled and well-qualified pharmacists to offer the society the best pharmaceutical services through the graduated personnel and guarantee professional and humanitarian attitudes.

the safety and wellness of the individual and society.

2-To hold scientific activities like conferences, lectures and scientific research which improve the students' expertise co-operating and coordinating with the relevant institutes.

3-To improve teachers' skills and their scientific achievements by providing the best conditions to conduct scientific researches and to participate effectively within post-graduate studies, sessions, conferences and symposiums.

## The names of the teaching staff of Pharmacy Department

1- Dr.isam Hammo Mahmood	Professor
2- Dr.Basil Muhammed yehya muhammed	Professor
3- Ahmed yehya Ahmed Qasim	Professor
4- Dr.wafaa Muhammed ali Hamid	Assistant Professor
5- Dr.Nabeel Muhammed jawad Muhammed	Assistant Professor

# Department of Radiology and Ultrasonography Techniques

## A brief description

Department of Technical Radiology And Ultrasound Was established In AL - Noor university College In 2018 - 2019 To participate in teaching various medical success to serve private and public medical sector.

Students of this Department spend 4 years To get BSC . In Technical Radiology and Ultrasound AL - noor University College building embody big halls for theoretical Lecturers , versions LABS which are

appropriate for curriculum units .

These halls and LABS are provided with up - to - date equipment and the required materials in the labs.

## Vision:

Radiology and Ultrasonography are the third human eye by which one can observe defect any found in the human complexion. This new eye achieves an appropriate diagnosis which helps the physician evade mixing the alimental cases up which seem to be alike or relatively identical in their symptoms.

## Objectives:

It trains and prepares the cadre who can deal with the techniques and apparatus of radiology and ultrasonography and recognizing the component parts of the human body so as to excel in diagnosis and reduce the possibilities of error.

NB: the teaching plan is available only in Arabic.

## Message:

It achieves enough time brevity in the diagnosis and guides the surgeons toward the exact places where the surgeon needs to

deal with and help the patient get the medical advice that leads him to be healthy.

# The Names Of The Teaching Staff Radiology Department And Sonar

1- Dr. Nawfal Yousif jameel Muhammed	Assistant Professor

# Prosthetic Dental Technology

## A brief description

In the department of dental industry, the study started in 2018/2019 by the admission of the first group. This department aims at training

and preparing scientifically qualified medical cadres to comprehend and manage the technicalities in the field of dental industry and to be

creative in it after a four-year preliminary study after which the students graduate to specialize as dental technicians.

## Vision:

God created man in a perfect shape, and it is well-known that human teeth reflect the harmony of his shape, and due to aging and carelessness, they tend to decay. Hence, appear the needs for alternative artificial dental appliances. As such, the establishing of this scientific field stems from those needs.

## Objectives:

One of the important aims of the dental industry is to draw a smile on the face of those who lost it as well as empowering them to overcome shyness and to provide them with efficient dental appliances matching the ones they lost to strengthen the elements of health preservation.

## Message:

is to Improve the value of the career of dental technician. and Improve the department of dental technology by keep pace with the development that happen to this speciality a

give the students this Improvement to use it for prosthodontic rehabilitation of the teeth made of acrylic prosthesis and dental Implant

# The Names Of The Teaching Department Of Dental Industry Techniques

# Department of Technical optics

## A brief description

The sound vision of the individual leads to the performance of the best ways and achieve the best consequences.

For this purpose the Department of Optics .Technologies aims at

educating and training individuals to be optometric technicians and opticians. Developing a program is recognized for excellence and innovation in opticianry and optometric technology. Teaching skills which enable

graduates to be proficient in the optical theory . In addition to encouraging faculty to continue developing current and innovative teaching materials.

## Vision:

The basic role of individual is to interact with his society and that is by looking clearly and adequately for creation and innovation. Every one should take his role adequately in the society's, as to meet the needs and develop his abilities to serve it. In this case, technical optics should take his role and influence the whole society.

## Objectives:

The main aim of Technical optics is to prepare scientific teaching staff having the ability to innovate and work in different spheres as the correctness of sight and show the limit of degree of sight, as well as treating cross-eyed people, suggesting eye-lenses and finally can make alternatives.

## Message:

This message is to help and cure those having eye-weakness as well as to create qualified and brilliant cadres. The message in fact

is to decrease the harms of people as well as to treat short sight or myopia.

# Department of names Teacher optics techniques

1- Dr.Ismail Khalaf Abbas Awwad	Assistant Professor

## A brief description

Department of Technical Radiology And Ultrasound Was established In AL - Noor university College In 2018 - 2019 To participate in teaching various medical success to serve private and public medical sector .

Students of this Department spend 4 years To get BSC . In Technical Radiology and Ultrasound AL - noor University College building embody big halls for theoretical Lecturers , versions LABS which are

appropriate for curriculum units .

These halls and LABS are provided with up - to - date equipment and the required materials in the labs.

## Vision:

The department vision is based on the actual needs of the health sector to anesthetic cadres operating in such vital specialty and to achieve the required sufficiency and balanced between surgeons and anesthesiologists.

## Message:

The anesthetic cadres are responsible for fifty percent of the tasks required from the medical cadres to safeguard patients' lives, since they are responsible for providing the safest surgical practices. as

well as the necessity for the anesthesiologist to identify the patient's medical condition, and accordingly measure the appropriate dosage.

## Objectives:

To provide specialized cadres to work in the fields of anesthetic techniques and intensive care in surgery room and intensive care units.

# Department of Construction Engineering and Project Management

## A brief description

This department has been established in the academic year 2021-2022, it is a modern specialty - only found in Al-Noor University College. It's

established to prepare engineers who are able to harmonize between civil engineering and project management. The

department provides courses related to these two specializations that urban projects combine.

## Vision:

The vision of this department is to:-

- Understand the country's need for specialists in construction engineering and project management,
- Prepare cadres capable of comprehending the realistic

image

- Invent new formats in line with reality,
- Ensure that the department would be distinguished and pioneering in the field of construction engineering and project management.

Its main mission is to support the labor market with talented engineers who are able to keep pace with the accelerating technology in the field of construction and project management.

## Objectives:

- Preparing reliable and capable national cadres equipped with the required knowledge in the field of work,
- Preparing qualified engineers who have the ability to use modern methods in the design, implementation and management of engineering projects particularly the operation of construction units and ready-made systems

## Message:

Preparing cadres that preserve the local architectural styles , working on enriching them and inventing new styles that add to the place a more glamorous and effective presence are the main goals of this department which can be achieved through the following:

- Contributing to the provision of efficient engineering cadres to meet the country's needs and to contribute to achieving the goals of scientific and economic development in the country.
- A continuous development of the academic curricula, with its practical and theoretical parts, in line with the practical development of all stages and levels of study which are necessary to keep pace with developments in the field of construction techniques and project management.
- Conducting scientific and applied research for development in the field of construction engineering

and project management which also contribute to solving operational problems in the field of construction and management

- Preparing engineering cadres who have the ability to manage the operation of specialized production units.
- Linking the field of construction and management with the field of information technologies to introduce modern technologies in the areas of design, implementation and project management.

- Providing scientific courses in the field of construction engineering and project management and opening up to relevant public sector institutions which are important to develop and build engineering cadres.

- Striving and continuing to improve and develop performance in the engineering, scientific and administrative fields to achieve comprehensive quality assurance and speed up obtaining academic accreditation.

# Staff members of the Department of Construction Engineering and Project Management

1- Dr. Saad Ali Hassan Ahmed Al-Ta'an	Professor
2- Dr. Jinan Rashid Mahmoud Ahmed El-Fil	Professor
3- Dr. Nadia Salem Ismail Selim	Assistant Professor
4- Dr. Mohamed Manhal Abdel Ghani Gerges	Lecturer
5- Dr. Muhammad Shakib Muhammad Yahya	Lecturer
6- Mustafa Rafea Taher Abdel Ghafoor	Lecturer
7- Nabaa Muhammed Daa Younes Al-Ashqar	Assistant Lecturer
8- Ihab Essam Aziz Ahmed Al-Dulaimi	Assistant Lecturer

# Covrses - First stage

## First Semester

subjects	units
Engineering Mechanics (1)	3
Mathematics (1)	3
Building Materials Technology (1)	3
Engineering Drawing (1)	2
Engineering Geology (1)	1
Fundamentals of Computer Science	2
Physics	1
Human Rights	1
English Language	2
Workshops (1)	2

## Second Semester

subjects	units
Engineering Mechanics (2)	3
Mathematics (2)	3
Building Materials Technology (2)	3
Engineering Drawing (2)	2
Engineering Geology (2)	1
Civil Eng. Fundamentals	2
Chemistry	2
Public Freedom And Democracy	1
Arabic Language	1
Workshops (2)	2

# Covrses - Second stage

## First Semester

subjects	units
Strength of Materials (1)	3
Concrete Technology (1)	3
Fluid Mechanics (1)	3
Engineering Surveying (1)	3
Mathematics (3)	3
Building Construction (1)	2
Computer Aided Eng. Drawing	2
English Technical Language	2

## Second Semester

subjects	units
Strength of Materials (2)	3
Concrete Technology (2)	3
Fluid Mechanics (2)	3
Engineering Surveying (2)	3
Mathematics (4)	3
Building Construction (2)	2
Computer Programming	2
Engineering Statistics	2

# Covrses - Third stage

## First Semester

subjects	units
Soil Mechanics(1)	3
Theory of Structures(1)	2
Engineering Analysis	2
Reinforced Concrete Design(1)	2
Building Services (1)	2
Quality Control of Building Materials	2
Principles of Remote Sensing (1)	2
Sanitary and Environmental Eng(1)	2
English Language Essay Writing	2
Leadership and Management Skills	1

## Second Semester

subjects	units
Soil Mechanics (2)	3
Highway Engineering	3
Reinforced Concrete Design (2)	2
Theory of Structures (2)	2
Numerical Analysis	2
Civil Eng.System Analysis	2
Sanitary and Environmental Eng.(2)	2
Principles of Remote Sensing (2)	1
Quality Control of Concrete	2
Sustainable Building Materials	1

# Covrses - Fourth stage

## First Semester

subjects	units
Foundation Engineering (1)	3
Quantity Surveying	2
Building Services (2)	2
Engineering Economy (1)	2
Construction Methods	2
Construction Project Management (1)	2
Steel Design (1)	2
Writing English Technical Report	2
Graduation Project of 1 <sup>st</sup> Semester	3

## Second Semester

subjects	units
Foundation Engineering (2)	3
Engineering Economy (2)	2
Eng. Management And Specifications	2
Construction Project Management (2)	2
Construction Equipment Management	2
Assessment & Rehabilitation Of Concrete Structures	2
Computer Applications of Project Management	2
Nano And Smart Building Materials	1
Graduation Project of 2 <sup>nd</sup> Semester	3
