Do Healthcare Providers' knowledge associated with Therapeutic drug monitoring services in Duhok-Iraq?

في مجلة

Journal of Population Therapeutics and Clinical Pharmacology

The image shows the front cover of a research article. On the left is the Al-Noor University College logo. The central text reads "Journal of Population Therapeutics & Clinical Pharmacology" with the ISSN 1677-0965. The article title is "Do Healthcare Providers' knowledge associated with Therapeutic drug monitoring services in Duhok-Iraq?" by Dr. Umar Qatibah Badr Al-Din Al-Layla, with a corresponding author Dr. S. Almal, Department of Pharmacy, Al-Noor University College, Erbil, Iraq. The article was submitted on 27 March 2023, accepted on 16 April 2023, and published on 08 May 2023. The abstract states that the study aims to assess the healthcare providers' (HCP) knowledge and attitude of TDM, its reliability, and their awareness and acceptance of the tool. The study was a cross-sectional survey in a tertiary care hospital in Duhok, Iraq. The sample size was 100 HCPs. The results showed that the majority of HCPs were not aware of TDM. The study concludes that there is a need for more awareness and training for HCPs regarding TDM. The cover also features a circular portrait of the author, Dr. Umar Qatibah Badr Al-Din Al-Layla, and social media icons for WhatsApp, Facebook, YouTube, Instagram, and LinkedIn, along with the website URL www.alnoor.edu.iq.
