13 CLIMATE ACTION

No country in the world is immune to the serious effects of climate change. Greenhouse gas emissions continue to rise and are now 50 percent higher than their levels in 1990. Moreover, global warming is causing long-term changes to our climate system, threatening irreversible consequences if we do not take necessary mitigation and adaptation actions today.

Sustainable Development Goals

13 - Climate Action

Professor Dr. Hana Ihsan Al-Baroudi, Head of the Radiological Technology Department at the College of Health and Medical Technologies at Alnoor University, delivered a seminar titled "*Environmental Sustainability is Everyone's Responsibility.*"
