

Sustainable Development Goals

1 - No Poverty

1 NO POVERTY

Poverty is a condition attributed to individuals who are unable to meet their basic needs, which include all the essentials required for human survival and reflect the prevailing standard of living in society. Poverty impacts many aspects of life, leading to reduced levels of education, poor health, and inability to work. It also results in higher rates of vandalism and disorder within the community.

1 - No Poverty

Al-Noor University hosted the charity bazaar organized by the Youth Imprint team in collaboration with the university's Student Activities Department. The targeted groups include widows, divorced women, people with disabilities, and the unemployed. The main items on display were Mosul cuisine, painting, glass painting, books, and various handmade crafts.
