

Sustainable Development Goals

10 - Reduced Inequalities

10 REDUCED INEQUALITIES

Global inequality is increasing, with 1% of the world's population holding nearly half of the global wealth. Goal 10 of the Sustainable Development Goals aims to ensure equal opportunities by adopting legislation and following policies that improve living conditions for everyone in a sustainable manner. Special attention must be given to the most vulnerable countries, such as the least developed countries and small island developing states, particularly through directing financial flows to them.

Sustainable Development Goals

10 - Reduced Inequalities

The Department of Psychological Counseling and Educational Guidance organized a seminar titled "Social Stigma and Its Impact on the Individual and Society", supervised by Dr. Ahmed Saeed Rashid, the head of the department. The seminar began with a lecture by Dr. Rashid on the concept of social stigma, followed by Assistant Lecturer Asmaa Khalil Ibrahim, who discussed the types of social stigma. Assistant Lecturer Ruaa Fares Mohammed then addressed the preventive factors against social stigma. This seminar marked the final segment of the Psychological and Counseling Week organized by the Department of Psychological Counseling and Educational Guidance at the Presidency of Alnoor University.
