11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

Sustainable Development Goals

11 - Sustainable Cities and Communities

A delegation from the university visited the site of the reconstruction of the Al-Hadba Minaret, and the name of Al-Noor University was inscribed on one of the new stone pieces designated for the inner structure of the minaret. This serves as a testament to the Al-Noor University family's love for the minaret, which stands as a symbol of the city and one of its prominent landmarks. These stones, adorned with the name of Al-Noor University, express the university's pride in this grand monument, which is rising today to regain its towering height and awe-inspiring majesty. The university's name will be like an open hand that contributes to lifting the minaret and ascends with it, every time the call to prayer reverberates from within.
